EXECUTIVE SUMMARY

The Corporate Governance Rating (9.30) that has been assigned to Türkiye Halk Bankası A.Ş. (Halkbank) on December 16, 2016 is hereby revised up to **9.38**. Our rating methodology (page 5) is based on the Capital Markets Board's (CMB) "Corporate Governance Principles".

Halkbank's corporate governance rating is revised as above in consideration with the importance given by the Bank to corporate governance principles and its willingness to carry out the compliance process continuously and dynamically.

Furthermore, SAHA publishes (annually) the World Corporate Governance Index (WCGI) which ranks countries in terms of their level of compliance with corporate governance principles as well as their germane institutions, rules, codes, and regulations together with international standards and indices which evaluate countries in a vast array of areas such as transparency, corruption, ease of doing business, etc.. Halkbank is analyzed as a Turkish company and Turkey takes place at the top classification of the WCGI which is Group 1. Details of the World Corporate Governance Index (WCGI) published by SAHA on July 21, 2017 can be accessed at <http://www.saharating.com>.

Halkbank is rated with **9.48** under the **Shareholders** heading. Exercise of shareholders' rights complies with the legislation, articles of association and other internal rules and regulations, and measures have been taken to ensure the exercise of these rights. All procedures prior to the general shareholders' meeting as well as the conduct of the meeting comply with the legislation, rules and regulations. There are no voting privileges. The Bank has a publicly disclosed dividend policy. On the other hand, there are areas for improvement like adoption as it is, of the rate of minority rights in the Bank's articles of association as prescribed for public joint stock companies (%5), and absence of a provision in the articles of association on realization of the general shareholders' meetings open to public and media with no voting rights.

Halkbank attained **9.49** under the **Public Disclosure and Transparency** chapter. The Bank has a comprehensive web site. Public announcements are made via all communications channels and are in accordance with CMB and Borsa Istanbul (BIST) rules and regulations. The annual report complies with the legislation, comprehensive and informative. The agreement and work conducted with the external auditor also complies with the legislation. Nevertheless, non-disclosure of all the benefits provided to board members and senior executives on individual basis is an area in need of further refinement.

On the topic of **Stakeholders**, Halkbank scored **9.52**. The Bank has a written and advanced human resources policy. Code of ethics is publicly available through the corporate web site. The Bank complies with environmental laws, and Corporate Social Responsibility and Sustainability activities are at satisfactory levels. A written compensation policy for the employees is established and disclosed to the public on the corporate web site.

From the perspective of the principles regarding the **Board of Directors**, Halkbank's tally is **9.16**. The board of directors fulfills all duties regarding Bank needs. The board of directors consists of 9 members and 3 of them are independent. Corporate Governance, Audit, and Compensation Committees are established within the board of directors and their working principles are disclosed to public. Profit sharing, stock options or performance based payments are not included in the remuneration package of the independent board members. There is 1 female member on the board. However, the Bank has not prepared a policy or set a timetable to reach the Corporate Governance Principles' advisory target of 25% female board membership rate and principles of remuneration of board members are not defined in writing.

Rating Methodology

SAHA's methodology for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's "Corporate Governance Principles" released on January 2014.

The CMB based these principles on the leading work of The World Bank, The Organization of Economic Cooperation and Development (OECD), and the Global Corporate Governance Forum (GCGF) which has been established in cooperation with the representatives of the preceding two organizations and private sector. Experts and representatives from the CMB, Borsa Istanbul and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose. Additionally; many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after taking into account country specific issues. Accordingly, these Principles have been established as a product of contributions from all high-level bodies.

Certain applications of the Principles are based on "comply or explain" approach and others are mandatory. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the Bank's governance practices in future should be mentioned in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders, and the board of directors.

Based on these Principles, the SAHA Corporate Governance Rating methodology features around 330 sub-criteria. During the rating process, each criterion is evaluated on the basis of information provided by the Bank officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a bank should be in full and perfect compliance with the Principles (see Rating Definitions, p.22).

To determine the total rating score for each main section parallel to the CMB's Corporate Governance Principles, SAHA allocates the following weights:

Shareholders: **25%**
Public Disclosure and Transparency: **25%**
Stakeholders: **15%**
Board of Directors: **35%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.
